

FROM SCREENING TO INSIGHT

CONTACT-FREE DECEPTION DECISION SUPPORT FOR BANKS

Most fraud, compliance, and integrity risks rely on interviews, documents, and intuition.

SensAI adds objective deception signals from standard video in real time—helping banks make smarter decisions at every stage of the customer and employee lifecycle.

WHEN TRUST MATTERS BEFORE DAY ONE.

WHAT MAKES SENSAL DIFFERENT

MULTI-SIGNAL DECEPTION ANALYSIS

Analyzes micro-expressions, voice stress, hesitation patterns, eye behavior, and more.

BUILT FOR LIVE SCREENING

Supports onboarding, loan interviews, fraud investigations, and compliance reviews.

REAL-TIME GUIDANCE

Highlights moments that merit follow-up while the session runs.

STANDARD VIDEO ONLY

No sensors. No wires. No wearables. No subject preparation.

WHY IT MATTERS

Financial losses and compliance failures depend on more than answers alone. SensAI adds a deception signal layer that supports more consistent and defensible decisions.

OPERATIONAL IMPACT

- ✓ Identify risk and deception indicators in real time
- ✓ Improve decision consistency
- ✓ Reduce false positives and investigation time
- ✓ Support compliant and defensible outcomes

BUILT FOR BANKING WORKFLOWS

Customer Onboarding & KYC Interviews

Loan & Credit Assessments

Fraud Investigation Interviews

Employee Integrity & Compliance Reviews

GLOBAL SCALE
